Precision is a collection that encapsulates the idea of the precision of concrete. The look of this versatile material is echoed perfectly through the porcelain tiles offering a versatile range that fuses effortlessly into any design project. The collection offers a neutral colour palette of 6 shades in numerous sizes which includes a 20mm thick option that is ideal for outdoor applications. The versatile range is ideal for both residential and commercial projects to achieve a slick and modern finish.

Please note that there will be a small lead time on samples for new colours references 12-20
