

Description

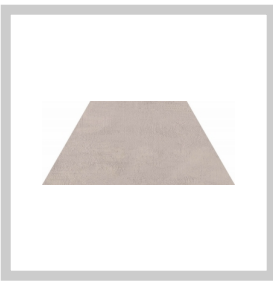

The shades collection takes the concept of plaster and its small natural imperfections. These imperfections on the tile surface play with light and shade to create shape and dimension, whilst at the same time maintaining a smooth soft touch surface. The collection comes in five chalk like shades and an amazing seven formats plus special pieces including mosaics, trapeze and rhombus shaped tiles which offer a multitude of laying patterns. The range Shades compliments the ranges Lustre and Woodlands for complete interior inspiration.
