

## CATHEDRAL

Cathedral is a decorative glass mosaic collection that represents the look of magnificent stained-glass windows typical to grand churches or cathedrals. The diamond formations create breath-taking statements and the colours combined with different grouts can become something utterly magical.

Sizes 365x210 mm

Finished in Glass

Available in 3mm thickness

### OUR SERVICES

BluePrint Ceramics offer a range of services to our clients to assist them in the tile specification process.

### CPD SEMINARS

BluePrint Ceramics have CPD accredited learning material available for our clients. We offer seminars that can be presented to our clients in their offices or practices. BluePrint will provide a light lunch and refreshments. There will be an opportunity to ask our experts any questions and each delegate will receive a CPD certificate via email to certify they have completed the seminar.

### SAMPLE SERVICE

We offer a comprehensive tile sample service. If you see anything you like from any of our ranges, you can order a sample via our website at the click of a button. No hassle, no worry and completely free of charge. We aim to send your sample out next day delivery to ensure our clients receive a fast, seamless service.

### LRV TESTING

BluePrint understand the needs of our clients when planning a project, that is why we offer on site Light Reflectance Value testing. In a matter of seconds, we can be given an LRV reading. We offer this service so that design professionals can feel confident with this easy and accurate method of colour matching designs to any of our BluePrint ranges. A certificate will be presented to the client confirming the LRV reading.

### PTV TESTING

A PTV test is a reliable robust method that measures the slippiness of a surface. With slips and trips now the most common cause of injury in the workplace the pendulum test is the only method that is recognised by the HSE.

The pendulum test allows us to calculate the slip potential of a tile and is an invaluable test that allows us to make relevant choices when it comes to choosing tiles for projects and ensures that the relevant safety standards are met. We have our very own in-house pendulum tester and we can carry out the tests as and when our clients require.

## GEMSTONE COLLECTION

Dedication and technical perfection equal Gemstone by BluePrint Ceramics. An astonishing work based on research and technical perfection in the effects of veining, the blend of delicate chromatic hues, marked tints and other tiny details. The surprising width of the sizes also required special attention. The end result is that every single tile is a bespoke masterpiece.

**Sizes** 1600x3200, 1600x1600, 1200x2400, 1200x1200, 600x1197, 600x600, 300x600, 150x600 mm

**Finished in** Natural or polished

**Available in** 6 or 9mm thickness

## JUNGLE COLLECTION

Jungle is a tile collection that takes its inspiration from botanic influences. The tiles have random patterns that can be put together like a puzzle. The unique theme makes this a statement collection that is the perfect match for a designer.

**Sizes** 250x250 mm

**Finished in** Natural

**Available in** 14mm thickness

## METAL MOSAIC

The bright glints of mosaic tiles in their original beauty, Metal Mosaic tiles provide a solid surface which becomes a flexible tool for agile yet attractive design. The four shades of the metal mosaic tile, steel, copper, brass and nickel are transformed into geometric modules that emphasize the valuable nature of the material, showing tactility and brilliancy in an interpretation of interior design with a modern slant, lightness, creativity and a contemporary nature is the synthesis of this mosaic tile collection.

**Sizes** 23x23, 23x48, 25x27, 24x13 mm

**Finished in** Natural

**Available in** 8mm thickness
