STONE EFFECT PORCELAIN TILES

8 COLOURS | 2 FINISHES | 4 FORMATS

Neo is a contemporary microcement-effect porcelain tile collection designed to deliver the sleek, seamless look of poured concrete with the strength and practicality of porcelain. Inspired by modern architectural surfaces, Neo creates calm, minimalist interiors with subtle movement and soft tonal variation. Unlike real microcement, Neo tiles require no sealing and offer exceptional durability, making them ideal for busy homes and commercial environments. The collection is suitable for both floors and walls, allowing a continuous, design-led finish throughout bathrooms, kitchens, living spaces and open-plan areas. Available in a curated palette of neutral tones, Neo complements contemporary, industrial and Scandinavian-inspired interiors. Large formats enhance the seamless aesthetic, reducing grout lines and amplifying the monolithic effect associated with microcement finishes.
