CONCRETE PORCELAIN TILES

Bring warmth and natural character to your interior with Earthen, a terracotta effect porcelain tile collection inspired by traditional cotto surfaces. Its earthy palette offers a contemporary way to introduce the welcoming appeal of clay into considered spaces. Available in Ivory, Beige, Terracotta, Greige and Taupe, Earthen moves from gentle neutrals to warmer, richer tones. Pair these shades with timber, natural textiles and muted colours for a relaxed scheme, or combine them with contrasting materials for a more architectural finish. A choice of square and rectangular formats, including large format tiles, gives designers flexibility when planning layouts. Earthen brings together a traditional material influence and a contemporary porcelain surface, creating a versatile foundation for interiors with lasting appeal. Explore Earthen with BluePrint Ceramics and request samples to compare the colours for your next project.
