

FRESH ICE

FRESH ICE

The Fresh Ice tile collection originated from the stones of southern France. The project created a fusion of aesthetic and elegant variation of ceramic tiles which interprets a whole new concept of luxury. It can be said to be a path to the old and new designs in a casual elegance. The Fresh Ice collection is available in a polished finish in 600x1200, 600x600 and 300x600 mm. It enhances the strength and diverse colour expressions of the stone in four natural colours which are: Sand, Lead, Ivory and Grey. Fresh Ice meets the requirements of international LEED rating system. The slabs are offered with ground edge which is ideal for close up.
